SALE OF CALIFORNIA FRUIT. Covent Garden, London.

(By Associated Press.) LONDON, Aug. 24.—The first large consignment of California fruit brought to this country, from New York, by the steamship Paris, has aroused the greatest interest in England.

When N. C. White & Co. commence to auction off the California products, shortly before noon to-day, at Covent Garden, this city, there were at least 500 huyers present from all parts of England.

500 buyers present from all parts of England.

An examination of this important consignment showed that much of it was picked too late and, consevently, it arrived in so ripe a condition that it is necessary to sell it to the consumer within forty-eight hours.

Other portions of the consigned fruit were too tightly packed and the esides of the boxes builged, in consequence, when on board the Paris. The weight of other boxes damaged the top and bottom row of the fruit.

The peaches arrived in poor condition, but the nectarnes were in fine shape. The grapes and plums were all right, but the buyers did not want grapes, because their quality was considered inferior to the English article. The plums were also not in great demand, because the market was aiready glutted.

The pear shipment also struck a bad market, as 10,000 baskers of French

Just at present there are more unemployed in this city than ever before, and the outlook for the Fall and Winter is far from reassuring. A movement is also on foot to have a special session of the Legislature called to pass a bill authorizing cities to issue bonds for work on public improvements, so that the unemployed may have work.
